FLEET IS OFF TO HONOLULU

HARD FIGHT FOR ARMY MAN'S LIFE

CRUISER HILO WHARF AGAIN FLEET SAILS

(Associated Press Cable.)
SAN FRANCISCO, CAL., NOV. 21.—THE PACIFIC CRUISER FLEET SAILED TODAY FOR HONOLULU.

Guard Ill; Fever Not Settled

Governor Fear made public at noon today the fact that one of the militiamen employed as guards at Kalahe, (no district where the single case of yellow fever has appeared, last night was stricken with a fever that the local physicians thus far have not been able definitely to diagnose.

The guard's name is M. Mika. He is a private of Company E.

Dr. Pratt, Dr. W. L. Moore and Dr. Blue have all examined the case and cannot state as yet whether it is or is not yellow fever. The Governor thinks that the chances are pretty good that it is dengue fever.

"In the early stages, dengue and yellow fever are much alike, and it is very likely only dengue," said the Governor in a statement at noon today.

The guard was first taken ill about one o'clock yesterday, but did not feel very badly and was able to go on duty at two o'clock, saying nothing of his symptoms. He stayed on duty from two to six o'clock. About nine o'clock he became worse and told some of his companions. Dr. Pratt was notified and with Dr. Moore made an examination on Dr. Blue examined the man this morning.

The patient has been on guard at Kalahe ever since the militiamen were called into duty more than two weeks ago. During the first few days of the guard work, mosquitoes were often noticed, but lately, it was reported, the day mosquito has been seldom seen.

Governor Fear stated that by this afternoon or tomorrow morning the case should have progressed far enough to make a diagnosis determinative.

No alarm is felt about the case but the man has been promptly looked after. He was put in a mosquito-netted bed and every precaution has been taken.

Capt. Camara, in charge of the guardmen at Kalahe, stated that the fever appears to be a mild form of dengue and that no alarm is felt. Every precaution is being taken.

GIRL TELLS OF TARRING

(Associated Press Cable.)
LINCOLN CENTER, Kan., Nov. 21.

Testifying as to the details of the tarring and feathering with which she was treated, the Kansas schoolmistress who was roughly handled by a mob of men and boys took the stand today. She testified that her underwear was not torn by the mob.

Prince Kuhio, on his way to Washington, refused to be interviewed on the Hawaii Governorship question by San Francisco newspapermen.

HILO WHARF AGAIN EVIDENCE FOUND TO CONVICT REYES

Lively times are promised at a meeting of the Territorial board of harbor commissioners, scheduled for tomorrow afternoon.

The Hilo wharf matter is coming up again, and it was reported today that the proposition of revoking the license granted by the Territory to the Hilo railroad to build the wharf will be one of the things brought up in this connection. The legislature has appropriated \$200,000 for the wharf and some of the harbor commissioners are reported as feeling that the license is not necessary now.

Intimations were affixed today from a number of sources, public and private, that there will be "something doing" if this is brought up.

CEDERLOF MURDER CASE ON; JURORS ARE UNDER FIRE

In questioning prospective jurors this afternoon, Attorney Lorrin Andrews, defending Sergeant McMahon, paid particular attention to the attitude of the juryman on homicides, indicating that the line of fight put up may be that of killing in self-defense. Five more jurors were passed for cause by the defense.

The fight for the life of Sergeant McMahon, of Schofield Barracks, charged with the murder of A. N. Cederlof, civilian clerk, began this morning in the Federal court, and that it will be a bitter fight was evident at once.

Attorney Lorrin Andrews, who represents the army man, in his questions to prospective jurors this morning showed the big fight that is to be made against the conviction of McMahon. His questions tend to the belief that he will bring up a doubt as to whether it was McMahon who fired the bullet that cut short the career of the civilian clerk.

He asked one of the jurors, George Angus, as to his belief about the person who did the killing. It was only a straw, but to those watching the trial it seems to show which way the wind is blowing.

United States Deputy Attorney C. Ritting is prosecuting. Biting passed the jury for cause and one of them, George Angus, has been passed by the defense.

McMahon was sitting in the court this morning alongside Attorney Andrews and listening with strained ears to every question and answer that was made. Although his face is (Continued on Page 4)

SAILOR FALLS THIRTY-FIVE FEET; NOT EXPECTED TO LIVE

Harold T. Quince, English by birth, seventeen years of age, and one of four young apprentice boys on board the British freighter Beckenham, fell from the floor of the forward hatch to the bottom of the hold, a distance of thirty-five feet this morning, and when brought on deck by his companions, was found seriously bruised and wounded, with both legs broken and a fractured collar bone.

Quince has been a member of the crew of the Beckenham for the past two years. He joined that vessel at London, England.

The injured man was quickly conveyed to the Queen's hospital at the orders of Dr. Carl Ramus of the United States Marine Hospital service.

A few minutes later, Dr. McDonald appeared upon the scene to render any assistance possible.

From all accounts, the covers for the forward hatch were being laid preparatory to the sailing of the Beckenham for Vancouver tomorrow morning. In some manner young Quince thence to Mexican coast ports tomorrow stepped on the flooring and one of the row

planks failed to hold to the cleat and tipping, sent the boy to the bottom. There was nothing to break the fall and the lad landed on the surface of the steel plates.

When brought to the deck and a few moments later placed in the police patrol, the sailor retained consciousness. He was apparently in terrible pain from his injuries.

Both legs were broken above the knee. A hasty examination revealed a compound fracture of the collar bone which is believed will prove fatal.

Captain Gow, master of the Beckenham arranged with the British consular officials for the care of the sailor at the port. He was given a substitute through the efforts of Harbor Officer Jack Weday, who readily found a man to ship to the coast in the freighter.

The Beckenham has been discharging a shipment of five thousand tons of Australian coal at the Inter-island bunkers. The vessel was to have departed for British Columbia and thence to Mexican coast ports tomorrow.

Jealousy is believed to be the cause of the murder, news of which was re-

EVIDENCE FOUND TO CONVICT REYES

(Associated Press Cable.)
SAN ANTONIO, Tex., Nov. 21.—

Copies of a manifesto inciting the Mexican army and the people of Mexico to revolt against the Madero government has been found, signed in print with the name of Gen. Bernardo Reyes, who is accused here of violating the neutrality laws.

The U. S. cavalry has been ordered to Brownsville.

AUSTIN TRAGEDY IS TAKEN UP

(Special Bulletin Cable.)
AUSTIN, Pa., Nov. 21.—Following

the investigation into the bursting of the great Austin dam, causing the loss of many lives, a warrant has been issued for Superintendent Hamlin, charging him with manslaughter.

U. S. CRUISERS SENT IN HURRY

(Associated Press Cable.)
WASHINGTON, D. C., Nov. 21.—

Two cruisers have been ordered to Santo Domingo to protect American interests and aid in bringing order out of the chaos occasioned by the assassination of President Caceres yesterday.

ANOTHER PHASE OF THAT LORIMER CASE

(Special Bulletin Cable.)
CHICAGO, Ill., Nov. 21.—According

to the reports of experts, neither the lumberman Hines nor Tilden was custodian of the Lorimer fund.

WIFE-MURDERER IS PREPARING FOR DEATH

(Special Bulletin Cable.)

DR. SUN TO CHINA

Dr. Sun Yat Sen, the revolutionary leader, is on his way to China from London with General Homer Lee, the famous soldier of fortune who figured in the Mexican revolution, according to cables news received by the Liberty News today.

The News has received the following cablegrams:

CABLED ORDERS TO PICK ARMY "UNFITS" PUZZLE

A cable message that arrived at army department headquarters here last night has been eagerly scanned by those who are fond of reading between the lines and under the written words. The message is the "repeat" of an order from the Secretary of War to all division commanders. It directs General Macomb, commanding the Department of Hawaii, to report to the division commander the names of all officers, not only under his direct control, but also those on detached duty in the department, who are unfit for field service.

In view of the fact that the annual physical examination of officers is regularly provided for by a standing order of the War Department, and that the examinations were to be held in Oahu from December 1 on, there is good ground for the belief that Washington is in a hurry to get a line on the officers who could see active service at once. This may mean that interven-

tion in China is not far off, and in that case the troops in Hawaii may have a chance to get in on the ground floor, as it were. There are three transports laid up at San Francisco—the Shigedan, Buford and Crook—which could be put in commission within a few days. There are three regiments in Oahu just itching to be sent. (To complete this puzzle picture, fit the soldiers to the ships and propel the latter in a general easterly direction.)

The cable order to the department commander has not been acted on as yet, but it is likely that according to its terms the physical examination of officers will be rushed through as soon as possible.

Another possible explanation to the orders, but one which army officers are loath to believe, is that there are to be some forced retirements in the near future, and a general weeding-out to expedite promotions.

MAYOR FERN'S VETO WILL PROBABLY BE SUSTAINED

There is every promise that a large delegation of residents and taxpayers from Ewa and Waiwala districts will drop in at a meeting of the city and county board of supervisors to be held this evening.

"Ewa and Waiwala districts take a decided interest in the resolution which if it becomes a law will cause a practical stoppage to a large amount of road maintenance and construction in these districts," stated one well known resident and voted this morning who came into town to be present at the gathering of city and county soldiers who are expected to act this evening upon the veto of Mayor J. J. Fern on this measure.

Mayor Fern has come out flat-footed against the taking away of funds from the country districts in order that any deficit in Honolulu road funds may be augmented to an extent that the widening of Nuuanu avenue may proceed uninterrupted.

Believe Veto Will Be Sustained. There seems to be a general impression about the "city hall" that the veto of Mayor Fern will be sustained. The resolution was introduced at a subsequent meeting by Chairman Dwight of the road committee. Since that date a veritable storm of protest over the provisions of the resolution has poured into the mail boxes and the listening ears of the several supervisors who have supported it.

McClellan, Murray Kruger and Amara are members of the board who (Continued on Page 6)

BLUE OR COFER?

Dr. L. E. Cofer and Dr. Rupert Blue are both in line to succeed Surgeon-General Walter Wyman as head of the Public Health and Marine Hospital service.

The news of the surgeon-general's death was received here by cable last night. Dr. Cofer is now high up in the service at Washington. He is a very well-known from his former residence here. After leaving Hawaii

he was put in charge of the bubonic plague campaign in Seattle, at the same time that Dr. Blue was waging his memorable fight in San Francisco.

So far nothing definite has been learned as to Wyman's successor. Dr. Blue and Dr. Cofer said today that either Surgeon A. H. Glennan or White is likely to be chosen, but officially it is said that Blue or Cofer may be named.

J. C. WILLIAMSON, a British capitalist, who has been making an extended tour of the mainland is a through passenger in the Nippon Maru enroute to the Far East and thence to England.

DR. G. W. SEIFERT, of San Jose, is a through passenger in the Nippon Maru, enroute for a tour of the Orient.

Chinatown Riot Is Feared

Declaring that there is danger of a clash between rival factions in Chinatown tonight, Raymond Hoo, representing the Sun Chung Kweok Bo, one of the leading Chinese newspapers, appeared at the police station today and asked Sheriff Jarrett to send a squad of police officers to guard the newspaper office and those who work there.

It is said that the revolutionary faction is likely to have trouble with other elements, and that the Sun Chung Kweok Bo has been threatened.

Sheriff Jarrett promised to send an adequate force of policemen to guard Chinatown during the parade and mass meeting that starts at 6 o'clock and later in the evening when the celebration by revolutionary enthusiasts of the impending fall of the Manchus is at its height.

CHEFOO MAN IS HERE; TALKS ON REVOLT

Landing of American marines at Chefoo was probably necessary for the protection of foreigners and requested by United States Consul Fowler, is the opinion of H. B. Niblock of Chefoo, who is now in the city.

Mr. Niblock is here on a vacation, he having left Chefoo previous to the rebellious outbreak becoming general, but is to return to his home there while the excitement is at its height.

"I think that the present outbreak will undoubtedly be successful in bringing about a complete change in government," said Mr. Niblock. "And the change will be beneficial to China. I think the nation will be more united once it settles down under the new regime."

"Although the Chefoo dispatches have had a reputation for unreliability, I think there is no reason to doubt that the American and Japanese newspapers are now in the city."
